

TANZEEL AHMAD

Front-End Web Developer

Bahawalpur, Punjab, Pakistan | tanzeelch19@gmail.com | +92 304 784 4144 | linkedin.com/in/tanzeel-ahmad
github.com/tanzeelch19-ts

PROFESSIONAL SUMMARY

Detail-oriented Front-End Web Developer with hands-on experience building responsive, user-friendly websites and web applications using HTML5, CSS3, JavaScript, and React. Strong understanding of DOM manipulation, event handling, and modern responsive design principles. Passionate about writing clean, efficient code and delivering high-quality web solutions. Eager to learn, grow, and contribute to challenging projects while following best practices.

TECHNICAL SKILLS

Languages:	HTML5, CSS3, JavaScript (ES6)
Frameworks & Tools:	React, Vite, Tailwind CSS, Git, GitHub, REST APIs, React Router, LocalStorage
Core Skills:	Responsive Web Design, DOM Manipulation, Event Handling, CSS Flexbox & Grid, Cross-Browser Compatibility
Other Skills:	Debugging, Problem Solving, Clean Code Practices, Version Control

PROJECTS

1. Task Management Dashboard

Personal Project

Technologies: React, Tailwind CSS, LocalStorage | Demo: task-management-code.netlify.app

- Built a task manager for organizing work into boards and tracking progress against deadlines.
- Implemented add, edit, delete, and status-tracking functionality with a clean component architecture.
- Used LocalStorage to persist tasks across sessions without a backend.

2. Movie Explorer

Personal Project

Technologies: React, REST APIs, CSS | Demo: movie-box-code.netlify.app

- Developed a movie search app using the OMDB API to fetch live posters, ratings, and details.
- Implemented dynamic search, loading states, and error handling for a smooth UX.

3. E-Commerce Store

Personal Project

Technologies: React, Tailwind CSS, React Router | Demo: e-commerce-code.netlify.app

- Built a shopping experience with product listings, cart management, and multi-page routing.
- Focused on a smooth, mobile-first checkout flow and reusable UI components.

4. Weather App

Personal Project

Technologies: React, API, JavaScript | Demo: weather-project-rho-smoky.vercel.app

- Built a weather forecasting app showing real-time conditions and forecasts based on location.
- Implemented dynamic UI updates and graceful error handling for failed lookups.
